At MTI
we aim to provide
the highest quality of Products
and Services for the challenging
needs of our customers.

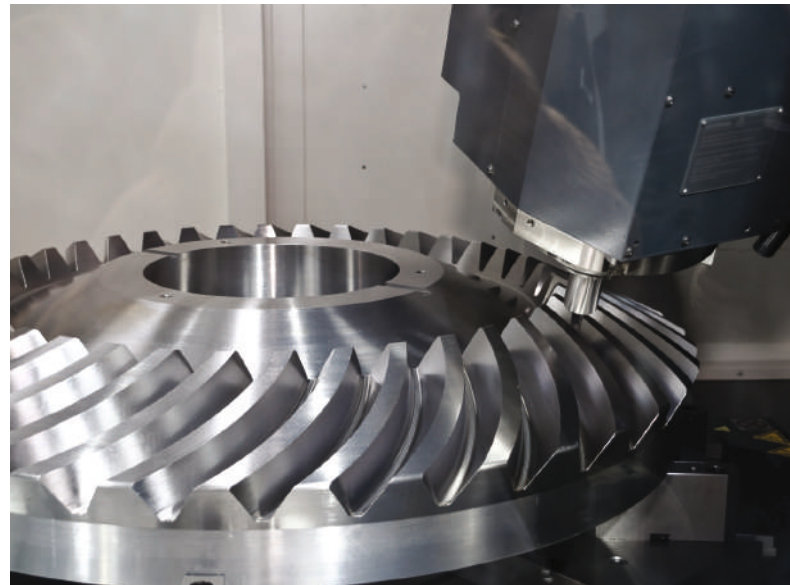

Introduction

Machine Tools (India) Limited, popularly known as MTI, was established on 7th August 1928 by a UK National to bring to India world class machines from various manufacturers from Germany, UK, Italy, Japan, USA etc.

Since then MTI has established itself as a leading name in the Indian Machine Tool Industry with its countrywide network of offices, strong sales, service support and professional management.

From Machines to Metrology / Quality Control Equipment and Welding Machines & Specialized Bearings, MTI offers a mammoth range of state-of-the-art products from the world leaders from across the globe. With a team of 325 professionals comprising of more than 165 mechanical / electrical / electronic engineers who have received training at various manufacturers' works in India and abroad for commissioning and service support.

A well-known name in providing professional and committed services is MTI's strength which is evident by its growing customer base in Automobile & Auto Components, Heavy Engineering, Iron & Steel, Aerospace, Railways, Power Generation, Defence, Metals and R&D / Quality Control.

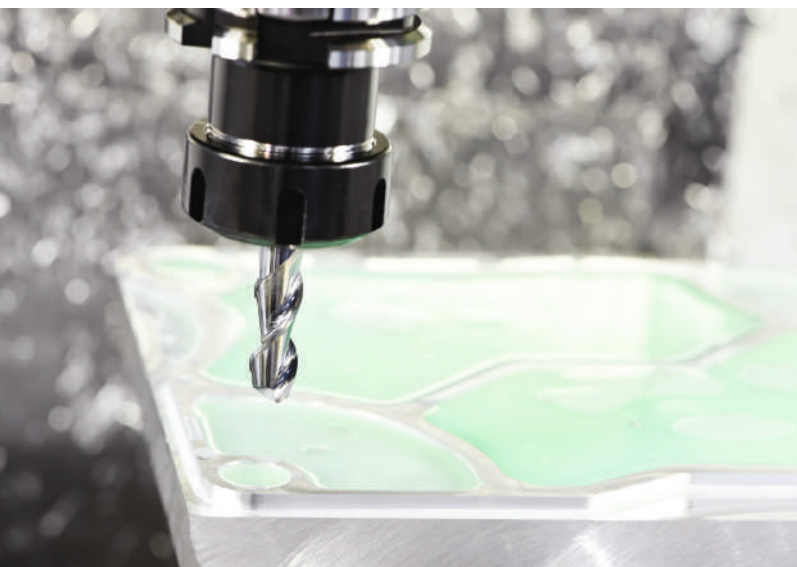

Mission

We will provide cutting edge advances in technology, through innovative thinking and revolutionary new ideas with a focus on:

- Successfully commercializing ideas and products
- Building a customer oriented organization
- Creating customized solutions

Vision

- Leadership in Machine Tool Technology
- Excellence in performance
- Customer delight
- Maintaining market leadership
- Generate new avenues of customer services

Setting new
benchmarks and
expanding horizons

Our Strengths

EXPERIENCE :

- One of the most experienced machine Tool companies in India (since 1928)

CERTIFICATIONS & RATINGS :

- We ensure our operational systems are well planned to delivery quality to our valued Principals & Customers, thus we have opted for ISO 9001:2008 quality certification
- We are also rated by Dun & Bradstreet India. Our DUNS number is 650049851

TEAM :

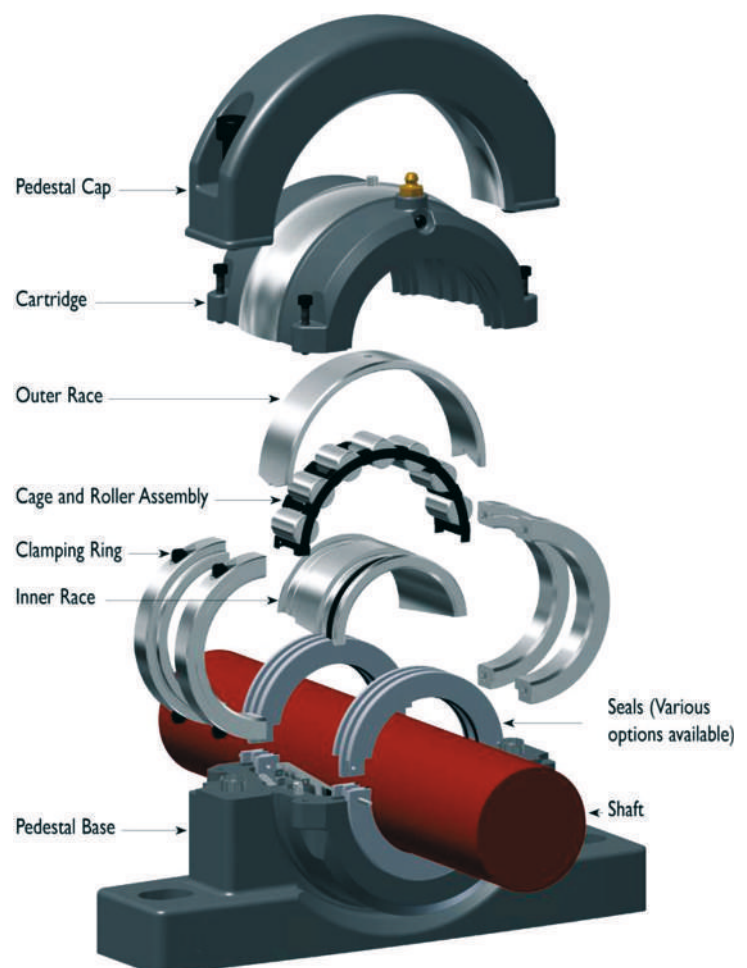

- Well-qualified Sales & Marketing Engineers to assist customers in selection of best suited Machines & Equipments
- Strong Team of Overseas Factory-Trained Service Engineers for Installations, Commissioning, Training & After-Sales support

OUR OPERATIONS :

- Conducting Technical Seminars & Presentations with customer Design & Production teams
- Continuous Training of Sales & Service Engineers on advanced technology
- Life-long service support through AMC
- Equipped to train customers staff in operating the machines
- Nation-wide Marketing & Service support network
- Active participation in International & Domestic Industrial Trade Shows
- Stocking of Spare Parts to meet customer needs
- Installations & Commissioning of Machines supplied
- Best Techno-Commercial Retrofit Proposals offered
- Warranty Services provided
- Competent Engineering Team trained at Manufacturers end on Latest Technologies
- Quick response capabilities of our team for all Sales & Servicing needs

REPRESENTATION OF MACHINES & EQUIPMENTS :

- Represents technologically advanced World Class Manufacturers of State-of-the-art Machines
- Excellent Technical & Commercial support from Principals'

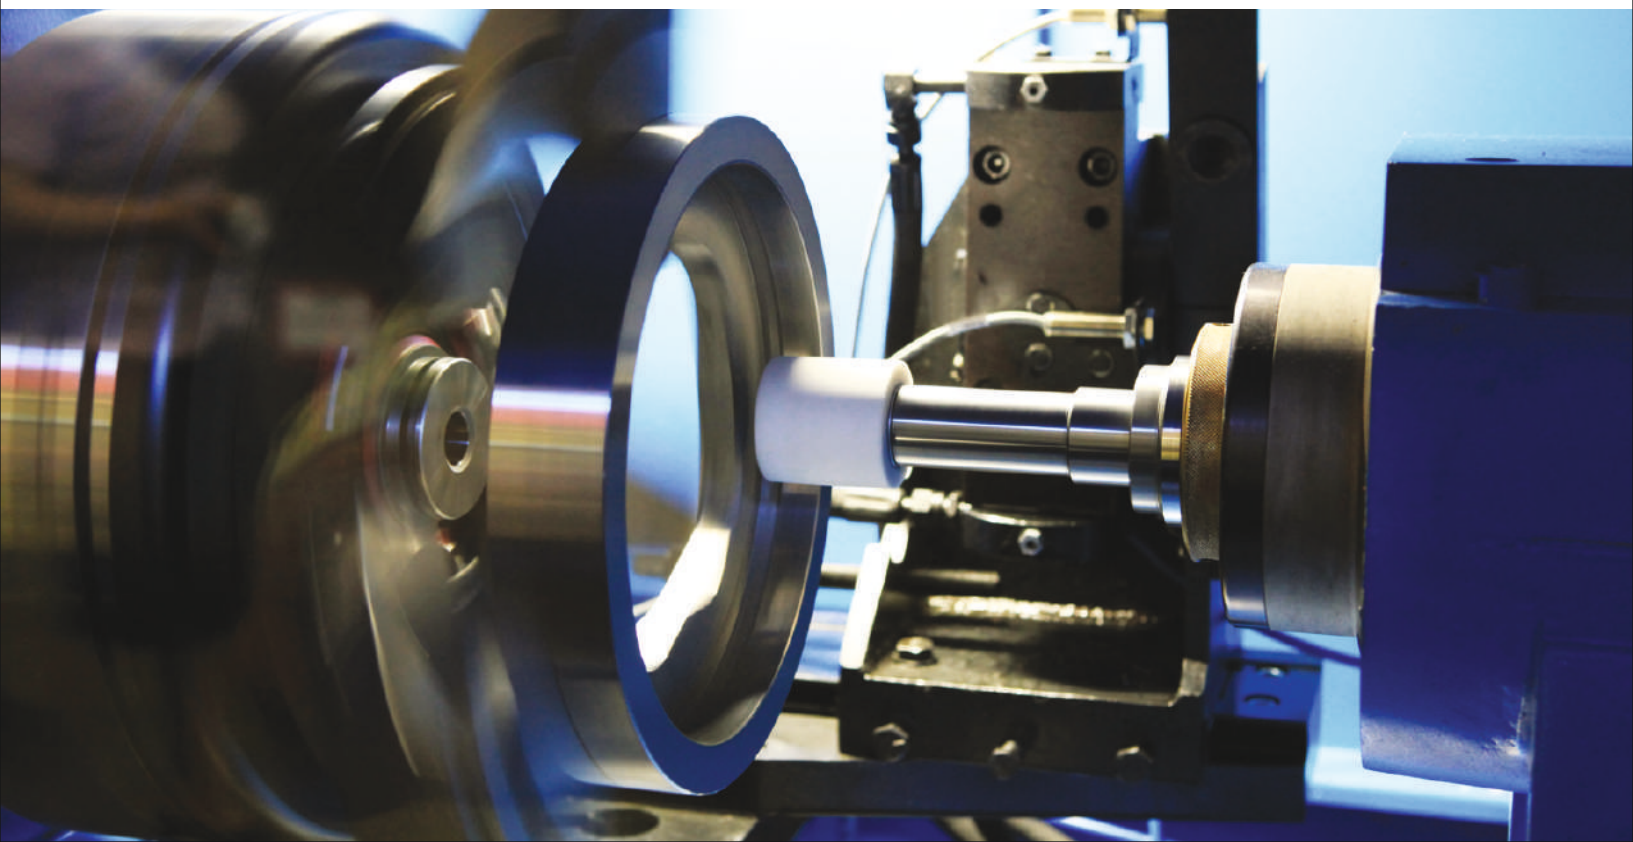

We strive for Customer Satisfaction.
We honour commitments.

Services We Provide

- We provide our clients the right Techno-Commercial solution.
- We ensure Timely Delivery of the ordered machinery to our clients.
- Once the machinery is supplied to the clients, we offer Installation Services and Commissioning of machinery supplied.
- We offer our clients contract servicing & maintenance through AMC packages or on call basis thus ensuring maximum uptime guarantee
- We also arrange for on call engineering personnel from our overseas principal.

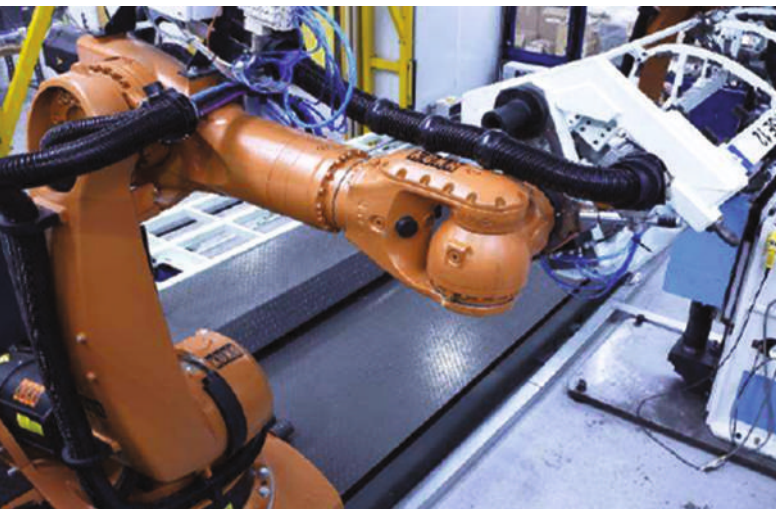

“ We are truthful and ethical; therefore, we trust and have consideration for each other. We treat others as we would like to be treated ourselves with respect.”

Industries We Serve

- Automobile & Auto Components
- Railways
- Defence
- Bearings & Allied Components
- Aerospace
- Shipping
- Heavy Engineering
- Power Industry
(Turbine, Generator & Boiler manufacturers)
- Renewable Energy
(Wind & Hydro Turbine manufacturers)
- Forging
- Ceramic & Tiles
- Iron & Steel, Cement & other Process Industries

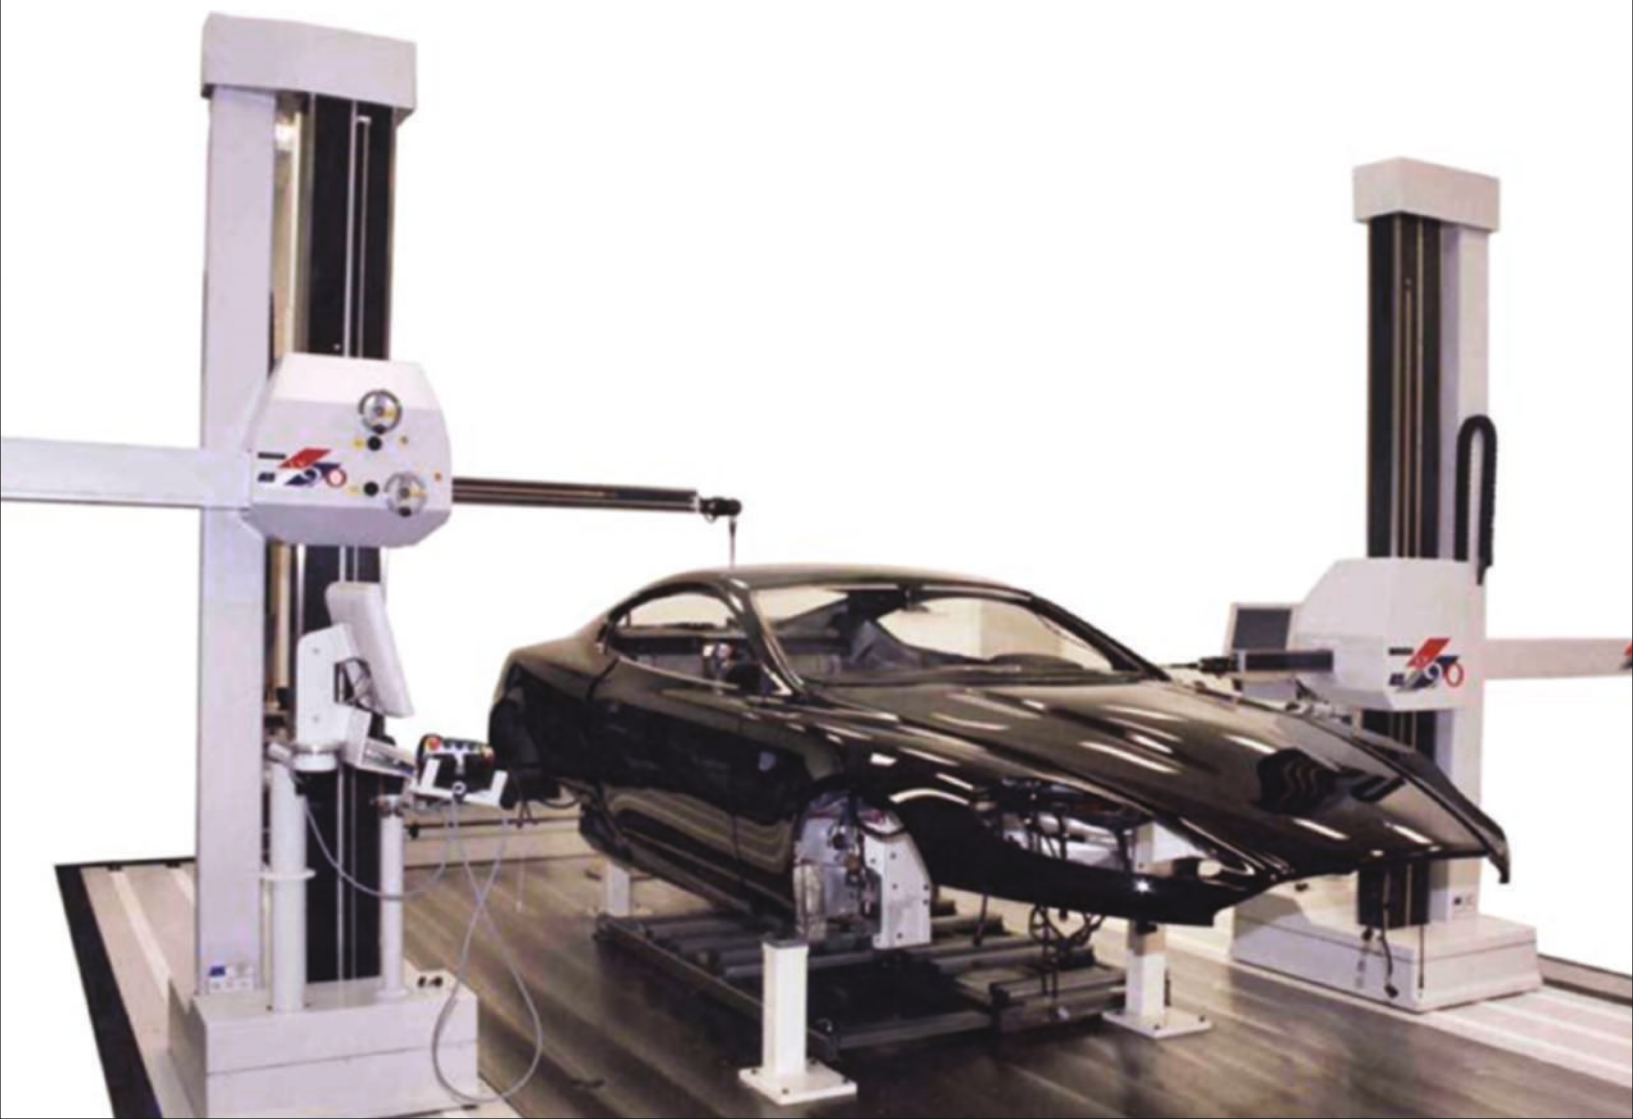

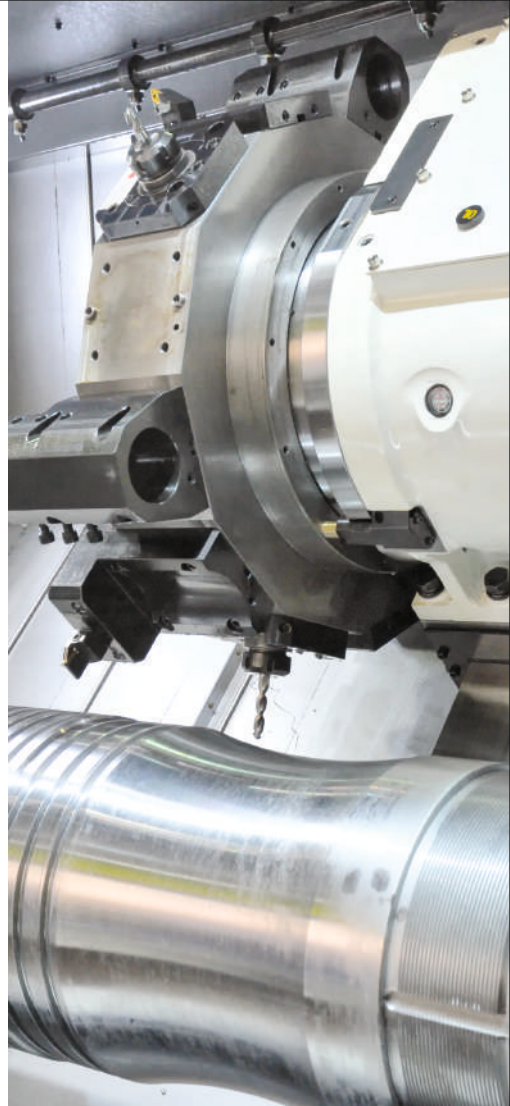

Social Responsibility

MTI endeavors to make its contribution & give back to the society, community & environment. Apart from monetary contributions to NGOs, social workers, etc MTI has identified wind energy as the fastest & cleanest way of generating electricity, which is in short supply in India.

Thus having invested in two windmills in the small villages in India, we are making our contribution to save the environment.

Our Biggest Strength, Our People.

- 165 committed and skilled Sales & Service Engineers trained abroad at Principals' works at USA, UK, Japan, Germany, Spain etc with highly motivated sales and application engineers

Diversified Product Groups handled by MTI

Metal Forming

Forging Presses - Eccentric / Open & Closed Die, Spring Coiling Machine, Electric Upsetting Machines, Crank Presses, Manipulators, High Speed Cold Heading Machines for Screw Bolts, Rivets and Similar Parts, Two Die, Three Blow Headers, Automatic Bolt Heading Trimming Machines, Automatic Pointing and Rounding Machines, Automatic High Speed Screw Head Slotting Machines, Automatic High Speed Thread Rolling Machines, High Speed Ball and Roller Headers

Metal Cutting

Milling, Grinding, Honing, Turning, Drilling, EDM, ECM

Sheet Metal

Laser Cutting, Water Jet Cutting, Plasma Cutting, Turret Punch Press, Shearing, Bending

Measuring, Metrology & Quality Control

CMM, Portable CMM, Optical CMM, Laser Scanners, Vision Based Measurement, Large Size Measurement, Surface Roughness Measuring, Roundness Measurement, Dimensional Measuring

Automation

Automation systems For Welding

Welding & Allied Equipments

ARC Welding Machines, Welding Consumable, Laser Welding Machines, Plasma/Oxy Cutting Machines, Complete Welding Solutions

Bearings Mechanical/ Hydraulic Jacks

Split Roller Bearings
Slewing Ring & Thin-Section Bearings
Hydraulic/Mechanical Jacks & Equipments

Tube And Pipe Making

Tube End Processing Machinery, Pipe Cutting Machines

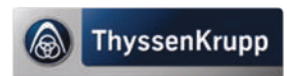

Special Purpose Machines

Spring Making Machinery, Electron Beam Welding Machines, Bar Machining, Special Machines Like Wheel Turning & Re-railing Equipment For Railways, Spinning Machines.

Gear Machinery

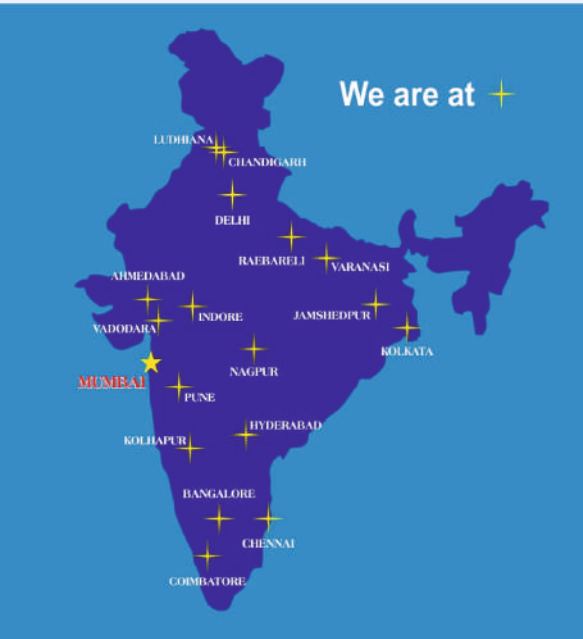

Hobbing Machines, Shaping Machines, Gear Grinding, Spline and Worm Hobbing, Bevel Gear Manufacturing Machines, Shaving Cutter Grinding Machines, Deburring Machines, Gear Tooth Rounding and Chamfering Machines, Gear Honing Machines, Skiving Machines, Super Finishing Machines, Gear Measuring Machines, Combined Machines for Hobbing and Grinding, Gear Lapping Machines, Gear Milling Machines, Thread Grinding Machines, Universal Gear Testers
